About Travelife (www.travelife.org)

Travelife is a certification system, dedicated to achieving sustainable practices within the tourism industry. It provides companies with realistic sustainability goals, tools and solutions to implement positive change within their businesses and supply chains. Travelife is managed by ABTA – The Travel Association in the UK - and by ECEAT Projects - a not-for-profit organisation based in The Netherlands. Travelife has two key focuses:

Travelife for Tour operators and Travel agents: the system provides online training and practical tools for sustainability management and certification. The training and online tools are suitable for tour operators and travel agencies of any size and cover all management aspects of the travel company business including office operations, the supply chain, destinations and consumers. Upon submitting a report in compliance with the Travelife standard (based on an independent onsite audit), the company can obtain the “Travelife Certified” status.

The Travelife standard for Tour operators and Travel agencies is based upon the full Corporate Social Responsibility themes, including labour conditions, human rights, environment, biodiversity and fair business practices. The management requirements are compatible with EMAS and ISO 14001. The system is supported by more than 35 national travel associations to further its implementation among members.
